Students must develop a capacity for self-direction, self-monitoring and self generation of ideas. In addition, students must learn how to formulate questions, conduct research, and write in a professional manner.

Mr. Dhananjay Deshmukh

B.E., M.Tech. (Pursuing)
HOD. BCA Dept.

Engagement is a key component of learning. Without engagement there is little motivation to learn. We need hooks to stimulate student curiosity and interest.

Mrs. Swati S. Adekar

M.C.A.
ASST. PROFESSOR (TRAINING & PLACEMENT OFFICER)

Being a good student throughout school and college is like preparing yourself for a marathon which will begin after you graduate. Focus on your goals and study hard, because the last thing you want is to tire yourself out before the finish line.

Miss. Vijaya Shambhakar

M.Tech.
ASST. PROFESSOR

Success might be relative but most things that matter in real life aren't. A degree is a degree, a job is a job and hard work is hard work – as simple and direct as it can be.

Mr. Kamlesh Thote

M.B.A.(NET/SET), M.Com(NET/SET), Ph.D.(Pursuing)

It's okay if you don't know what to do in life as long as you are not doing something you shouldn't be doing. Staying on one of the right paths is better than veering off to the wrong ones.

Miss. Pooja H. Rane

M.C.A.
ASST. PROFESSOR

Give up on your frustration but never on your hopes. Give up thinking about your setbacks but never on your goals. Give up worrying about your past but never on your future.

Empowering your Dream Career.

It is true that experience is one of life's best teachers. But if you don't study you will probably never get any experience in the first place.

Miss. Swati P. Doye

M.C.M.
ASST. PROFESSOR

One looks back with appreciation to the brilliant teachers, but with gratitude to those who touched our human feelings. The curriculum is so much necessary raw material, but warmth is the vital element for the growing plant and for the soul of the child.

Dr. Sheetal Chavan

M.Com., Ph.D.
HEAD, DEPARTMENT OF COMMERCE

Good grades are a stepping stones towards getting into a good college, getting a good job and eventually living a good life. Shun those complacent C's, avoid those boring B's and strive every single day, to get those awesome A's.

Mr. Vikram C. Dongare

M.B.A., M.Com., Ph.D. (Pursuing)

No other investment yields as great a return as the investment in education. An educated workforce is the foundation of every community and the future of every economy.

Mr. Khurshid Akir Ahmad

M.C.M.
ASST. PROFESSOR

Education is the key to success in life, and teachers make a lasting impact in the lives of their students. Everyone who remembers his own education remembers teachers, not methods and techniques. The teacher is the heart of the educational system.

Miss. Priyanka Thakur

M.Com.
ASST. PROFESSOR

I have learned that, although I am a good teacher, I am a much better student, and I was blessed to learn valuable lessons from my students on a daily basis. They taught me the importance of teaching to a student and not to a test.

Miss. Priti Mankar

M.Com.
ASST. PROFESSOR

I am a teacher. It's how I define myself. A good teacher isn't someone who gives the answers out to their kids but is understanding of needs and challenges and gives tools to help other people succeed.
